ART UNIT 1775

Art Unit: 1775

**DETAILED ACTION*****Inventorship***

In view of the papers filed on January 19, 2005, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by the addition of the following inventor names: April Hixson-Goldsmith and Murali Ramasubramanian.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

***Allowable Subject Matter***

Claims 1 to 14 are allowed.

The following is an examiner's statement of reasons for allowance: **(A)** The Examiner withdraws the rejection of claims 1 to 14 under 35 U.S.C. § 102(f) because the papers filed on January 19, 2005 properly correct the inventorship for this patent application. The requirements for changing the inventorship by adding the names of two inventors (April Hixson-Goldsmith and Murali Ramasubramanian) have been met. **(B)** The prior art search has not produced any references which teach, suggest, or disclose, either alone or in any combination, applicants' claimed method of forming a thin magnetic film of nickel-iron alloy on a substrate wherein the Ni-Fe alloy film contains *63% to 81% iron by weight*, the aqueous plating solution contains *more than four and less than seven Ni<sup>++</sup> ions for each Fe<sup>++</sup> ion*, and the Ni-Fe electroplated layer is *annealed in the presence of an external magnetic field*. U.S. Patent Nos. 5,763,108 and 6,118,628 represent the most relevant prior art, and these patents teach electroplating methods for forming thin films of nickel-iron alloys having up to 62% iron by weight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
